TO ADVERTISERS. The circulation of the Jaily and Tri-Weekly editions of the Patriot, combined, exceeds largely that of any other newspaper printed in Nashville It is these editions that are generally used for advertising The Patriot therefore, is the best advertising medium in the city.

Mostc.-Prof. Weber has the reputation of being one of the most accomplished teachers of Mu- All abourd! sic in the city. A card giving his terms for teaching will be found in another column. We take pleasure in commending him to public patronage.

COTTON PLANTES. - We see that Reed & Marshall of Goodlettsville, have purchased the right to manufacture and sell Stuart's Cotton Planter in Mildle Tennessee. This machine, we are satisfied, is destined to work a complete revolution in the process of planting cotton. A description of it has ple, and is easily worked, a small boy being competent to manage it. It saves a vast amount of labor, besides putting in cotton with great expedition and in a superior manner. Me-srs. Macev & Hamilton are the agents for the sale of these machines in this city.

CUTLERY. - Among the almost endless quantities and varieties of articles to be found in the stock of Beaumont, Vanleer & Co., is a splended assortment of knives, &c. We are obliged to them for a beautiful article of cutlery.

RUNAWAYS .- A mule team took fright on one of our busiest streets yesterday, and broke off at a 2 40 lick. They were stopped however before doing much damage. Another runaway occurred on Cedar street on Monday, by which a show window was demolished, and a Mr. Birmingham was considerably injured.

AT Cost .- Attention is directed to the advertisement of the Messra McClelland. They are selling a fine lot of cloaks, silks &c, at cost. Call and get one before they are all gone.

When persons allow their patriotism to exhibit itself in articles of dress, they may be set down as belonging to the category of individuals who are possessed of "intensely American feelings." We noticed a gentleman yesterday with the American flag wrapped around him as a protection from the cold,

WATER PIPE .- The pipe upon Summer street, above Broad, we are gratified to learn, is to be laid down as soon as possible. That portion of the city has long needed and been entitled to water.

NEW IRON AND HEAVY HARDWARE STORE -Decidedly one of the most substantial buildings in the city has recently been erected by the Mesers. Hillman, on Market street, in the rear of their present store on College. It was built expressly for the business which these gentlemen are engaged in, and in point of strength and fitness for an iron and heavy hardware store, none could hardly be better adapted. The increasing demand for iron, and the growing busiless in this depart ment of trade, has made this extension of room necessary to this firm. It has on hand a very large stock of Tennessee and Pattsburg iron, and in addition thereto it intends keeping a full supply of heavy hardware. In another place will be found an advertisement enumerating many things to be found in this stock.

New BUILDINGS .- With the first indication of moderate weather, we notice that large numbers of bands are engaged in prosecuting the work upon structures already commenced or are removing old buildings and structures preparatory to the erection of new ones in their stead. The old store bouse adjoining the new store of Thompson & Co., is being torn down, and a fine new one is to supply its place, corresponding with those on either side of it. The old houses at the corner of the Square and Front street, are part disappearing and and magnificent block of buildings is to put upon the site. Such is the murch of improvenment.

appeared in yesterday's Parsior, should have read A. Anderson instead of O. H. Anderson. No disparagement was intended to our worthy Mayor.

Consols. We have often been enquired of respecting the true signification of the term Cossons, that figures so largely in the financial reports by the European steamers. Though well understood by most commercial men, there are many no doubt who are uninformed and would like to be enlightened on the point. For the benefit of such we present the following definition as laid down in McCullock's Die-

tionary of Commerce: THREE PER CENT. CONSOLS, OR CONSOLIDATED AN SULTIES .- This steek forms by much the largest when an act was passed, consolidating (hence the name) several separate stocks, bearing an interest of 3 per cent. into one general stock. At the period when the consolidation took place, the principal of the funds blended together amounted to 9, -137,821/; but by the lunding of additional loans, and parts of loons, in this stock, it amounted, on the 5th of January, 1858, to the immense sum of 347,458,931/.1

The consolidated annuities are distinguished from the 8 per cent. reduced annuities, by the circumstances of the interest upon them never having been varied, and by the dividends becoming due at different periods. This stock is, from its magnitude, and the proportionally great number of its holders, the soonest affected by all those circumstances which tend to elevate or depress the price ! of funded property And, on this account, it is the stock which speculators and jabbers most commonly select for their operations. 'Dividends payable on the 5th of January and 5th of July.

STEAMBOAT AND RIVER NEWS.

Boats Advertised to Leave this Day. ALIDA......Paducah, The late heavy rain caused the ice in the river in this vicinity to break up yesterday. That above the bridge formed a gorge at the old pillars. A slight rise and a consequent current of greater force would doubtless sweep it all away. We presume the channel is clear this morning.

There is nothing further from the Ohio or Mississippi, but if the thaw extended to those rivers, navigation will doubtless be speedily resumed.

Fon Papucan -That well known, light draught and popular craft, Alida, is advertised to leave today for Paducah. She is staunch and fast, and those desiring to go down will find her a TRUMP.

Tickets, \$4- Halves, \$9-Quarters \$1. PLAN OF THE LOTTERY Same as the Royal Lottery of Cuba-with this difference: the Havana Lottery has \$5,00) Numbers-this has only There are two wheels, on each of which there are placed two Locks. The Superintendents have each a key to the Locks, an the wheels cannot be opened unless both are present. There are places in the wheel of numbers sin tubes containing slipe of paper with the numbers from No. 1 to 15,000. In the wheel of prizes there are placed tin inbes containing slips of paper with the prizes on them ranging from \$15,000 to \$100. When the drawing takes place, which will be in public,

the wheels are unlocked, and after revolving them, a num-ber is drawn out of the wheel of numbers, and at the same time one is drawn out of the Prize wheel by boys with arms bared to the shoulder and blindfulded—the tube is slipped off, and the number held up and excelled, so that the whole audience an see it—the number is then called off and reg-istered by the Superintendents. The Priss drawn is credit ed to the number drawn at the same time, and so on until all the prince are drawn out. A copy of the drawing is then sent to the printers, and after comparison the Superintendents certify to the correctness of the drawing. These Superintendents are sworn to perform their duty without It will be perceived that in this plan every prize is drawn out, and of course some person must get them; a drawing is sent to every one ordering tickets. SPECIAL NOTICES.

A Great Cure for Female Complaints will be found in Holloway's Ointment and Pills. The wonderful enres effected by these medicines in complaints incidental to females, would appear incredible to the citizens of the Union, if the facts were not duly confirmed. Sold at the manufactories, No. 80 Maiden Lane, New York, and No. 244 Strand, London; and by all druggists,

Consumptives have found in "Carter's Spanish Mixure," a certain and speedy cure, after the prescriptions of many of the most scientific physicians had proved abortive. Mr. Turner H. Ramsay, of Fredericksburg, Va., whose certificate will be found around the bottle, acknowledges his in lebtedness to this medicine for the preservation of his life, as do scores of others who have been equally benefitted by its effects. Great Cure of Rheumatism .- The editors of the

Richmond Republican, of Dec. 24th, 1852, says that Carter's Sonnish Mixture is no quack medicine. They had a man in their press-room who was afflicted with violent Mercurial Rheumatism, who was continually market dull. We heard of sales of some 50 bales at 8%@ | complaining of misery in the back, limbs and joints; -his eyes had become feverish and mattery, neck swollen, throat sore, and all the symptoms of itheumatism, combined with Scrofula. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just fallen under our notice, in the shape of a CATRANvic Pull, from the Laboratory of that world renowned

Chemist, Dr. C. J. AYMA. If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consummate skill extracted the virtues of the medicine to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperold pill which is wrapped in an envelope of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all the labored perfection they are offered to the Public at less than one centeach. However humble the devartment, we think this may be cafely characterized as the consummation of Art in
